Este un model
de espant
final care

se impune prin forma simpla
si in acelasi timp cu look agresiv
datorita terminatiei de diametru
mare.

Unul din avantajele pentru care este
remarcat este acela ca dispune
de silencer demontabil,
ceea ce face ca piesa sa fie
omologata pentru utilizare de strada
cu zgomot redus, dar in acelasi timp
cu sunet specific sportiv.
